

Specification Contents

The purpose of this Project Specification document is to explain the functionality and requirements for the development of the core cloud based platform supporting the Golfer Card Project. This document contains:

- **Golfer Card Overview**
- **Technology Overview**
- **Database Overview**
- **Users & Permissions**
- **Registration Process**
- **Self Registration**
- **Pro Registration**
- **Golf Clubs Page & Add/Edit Golf Clubs**
- **Player Activity & Add Activity Modal**
- **Golfer Cards Page, Request New Cards Modal & Assign Cards Modal**
- **Card Readers Page & Add New Reader Modal**
- **Golf Club Profile**
- **Golfer Profile**
- **Additional Pages & V2 Notes**

Golfer Card Overview

Introduction

England Golf and Golf Union of Wales are collaborating on a joint venture project to establish a national data collection and visitor registration scheme based initially on insurance but ultimately developing into a national loyalty and benefits/rewards programme linked to green fees/tee times and other golf benefits.

This will not be a mandatory scheme but rather one that golf clubs will embrace as an effective data collection route and also to meet the increasing need for insurance provision for golfers.

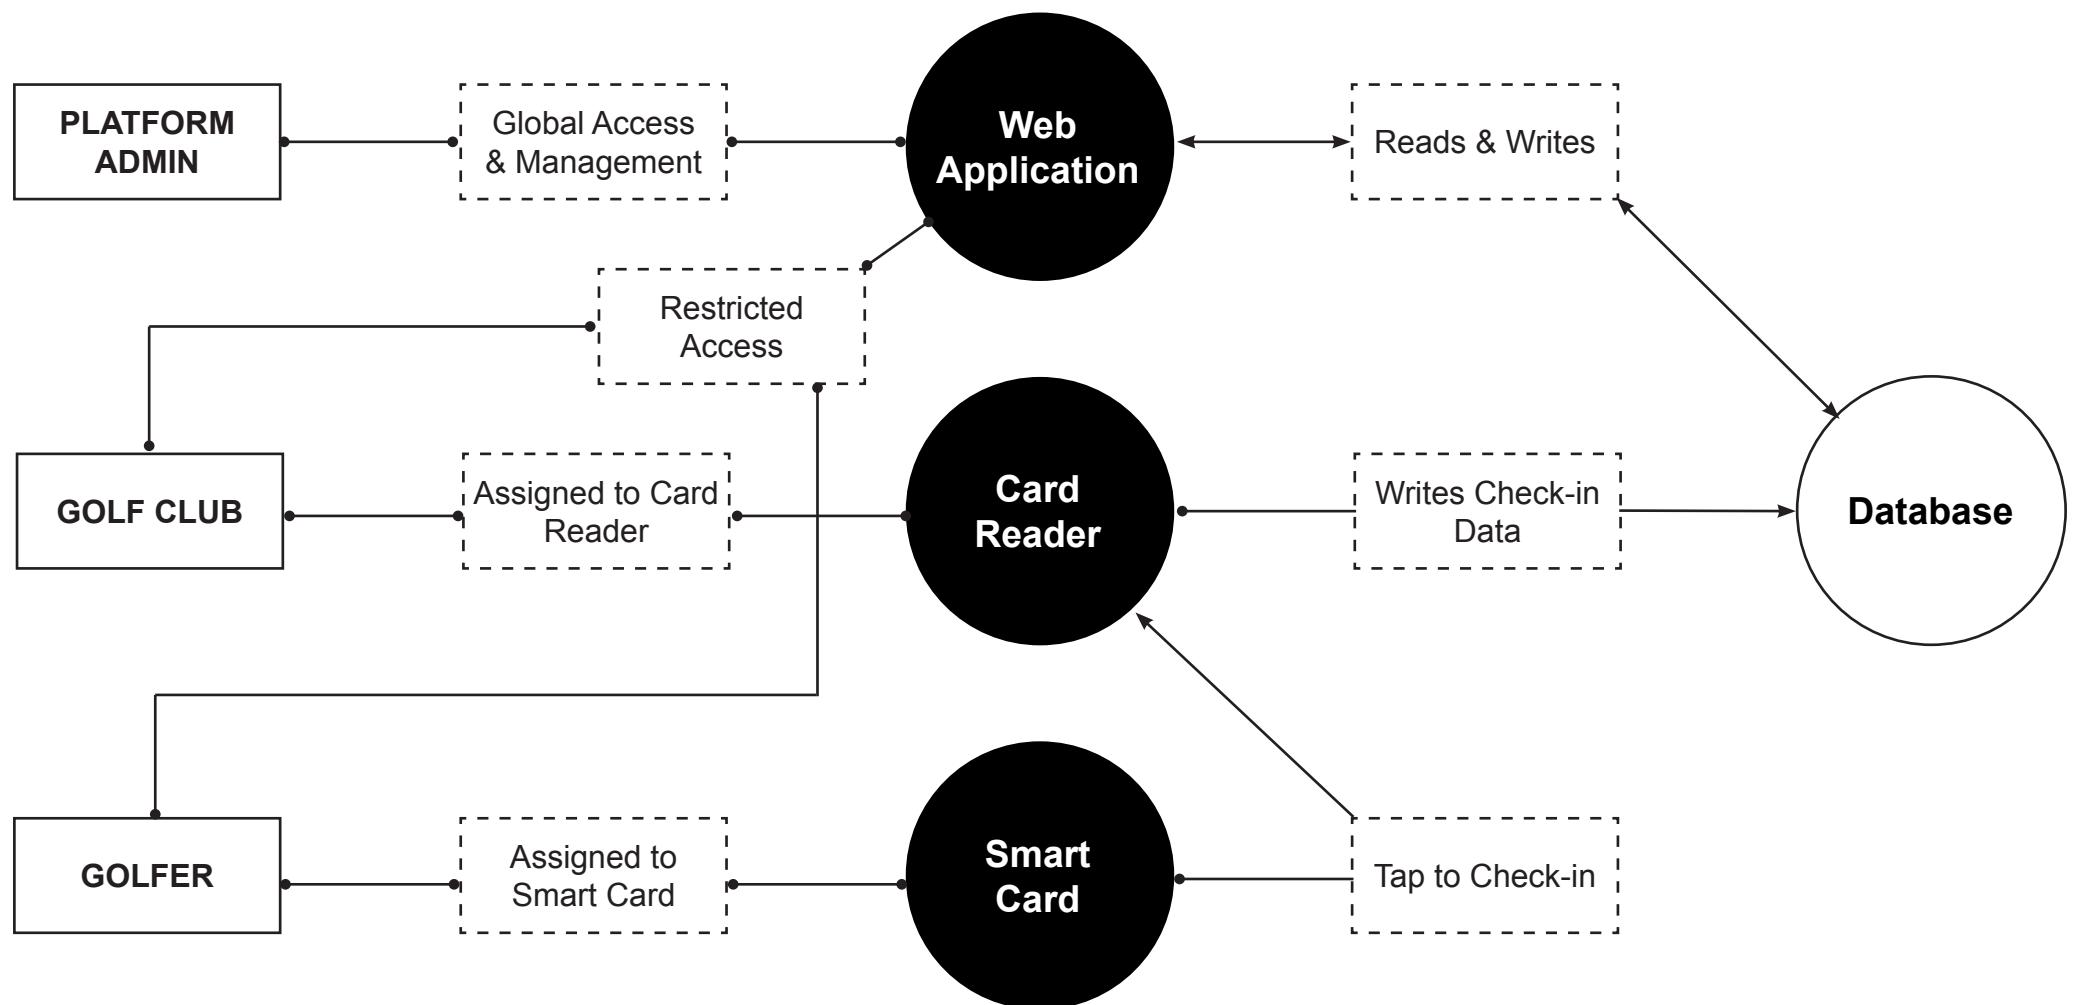

There are currently around 2,000 golf clubs; 700,000 member golfers and approximately 1.5 million regular non member golfers.

Implementation

1. The Golfer Card will be launched around a wider awareness and education programme on the need for golfers to be insured. The existing opted in email database of 180,000 EG golf club members will be automatically added to the scheme and their individual insurance- at least in year one- met by the JV. Commercial sponsorship.

2. Golf clubs will be encouraged to join the scheme and provided with the necessary technology and data collection process to meet the fulfilment. It is believed this will be an attractive offer to golf clubs that have realised the benefits of customer data.
3. On a visit to a participating golf club, golfers will be informed they are required to provide their data in order for the golf club to meet its insurance obligations. The golfer can decide not to join the scheme; either sign in on the day and pay green fee insurance; present their card if already registered; sign up to the scheme on that day.
4. The golfer would be required to register for the scheme at the golf club by completing the appropriate form. They are then not required to complete a form on every subsequent visit to participating golf clubs.
5. After completing the standard registration form, the golfer would then receive the attached plastic card bearing a unique ID.
6. On future visits to participating golf clubs, the golfer would need to tap this card in order for the club to collect the registration data.

Technology Overview

Database Overview

TABLE	DESCRIPTION
Player	This stores all of the information relating to a golfer.
Player Activity	This stores check-in data. Based on this table, 'Card Readers' table and 'Registration Cards' table we are able to use information sent by a card reader to show which golfer checked-in, at which gold club and when.
Golf Club	This stores all of the information relating to the golf clubs signed up to the scheme. This data will also be used to populate other projects within the OGN portfolio, although that is not a consideration for the MVP.
Registration Cards	This is based on the cards produced by the smart card provider and contains the reference which allows the display of information showing which golfer checked in.
Card Readers	Provides information on which Unique Card Reader IDs are associated with each golf club and therefore, after check-in, display where the check-in occurred.
Country	List of countries the Golfer Card scheme is active in, which populates the dropdowns used during registration of users and golf clubs.
County	List of counties the Golfer Card scheme is active in, which populates the dropdowns used during registration of users and golf clubs.

Users & Permissions

PAGE	GOLFER	GOLF CLUB	ADMIN
Registration	Online registration if they belong to a club and their club is open for registrations.	Golf clubs can only be added by admin, not by golf clubs themselves. Golf clubs can register golfers.	Admin can register clubs and golfers. Admin users are added directly in database.
Login	Can login via login page.	Can login via login page.	Can login via login page.
Golf Clubs	Cannot access.	Cannot access.	Can access and view all.
Activity	Only sees their own check-ins and the page is called 'My Activity'. Shows 'Golf Club' 'Date' and 'Time' columns.	Only sees check-ins at their golf club. Shows 'Golfer Name' 'Home Club' 'Date' and 'Time'.	Sees all activity and columns.
Golfers	Cannot access.	Can only see golfers who are their own members or who have checked in at their club.	Can access and view all.
Cards	Cannot access.	Can only see cards assigned to their own golf club. 'Golf Club' column not shown. Can request new cards but cannot add them.	Can access and view all.
Readers	Cannot access.	Cannot access.	Can access and view all.
My Profile Profiles	Shows user's own profile information and edit ability.	Can view and edit own profile (club details) and view golfer profiles.	Can access and view all.
Info & Support	Can access and view all.	Can access and view all.	Can access and view all.
Logout	Can use.	Can use.	Can use.

Registration Processes

The Golfer Card Scheme can be joined by a golfer in two ways. They are either prompted to register online themselves based on their membership with a Golf Club (Self Registration), or they can register at a participating Golf Club where the Golf Professional registers them (Pro Registration):

Self Registration

Golf Clubs within the UK will be approached to join the Golfer Card Scheme and for all of their members to register.

For clubs who sign up, there will be a window of time (for example, 1 month) when their players can visit the web application and register for a card by selecting their club and then entering their details.

Once the registration closing date for this club is reached, the cards are printed and sent to the golf club in a batch. Members can then collect their printed cards.

Pro Registration

For Golfers who visit a golf club to play golf and see marketing material about the Golfer Card (or hear about it somewhere else), they are registered to the scheme by the golf professional (who is in charge of managing members, golf rounds etc).

On the reception desk will be cards attached to a flyer/form. The golfer fills out their details and hands it to the golf pro, who can then register the golfer online.

The card itself will already be trackable by its ID. Therefore, it is not essential that the golfer is registered before they first check-in by tapping the card.

Self Registration

Process

1. Golf Clubs accept to be part of the scheme and provide a list of their members to receive a welcome/registration email.
2. Members receive an email introducing the scheme, with a link to the registration page and are notified when they need to register by.
3. Members visit the registration page and first select their club from the drop down list. They then fill out the rest of their details in the form.
4. Once they have clicked 'Register' they are sent a confirmation email and shown a 'Success Modal'.
5. The registration confirmation email contains their account details, information about when they will receive their card and also a link to the login page.
6. Users are able to then login and taken to their home screen, which for golfers is the 'My Activity' page.
7. The system assigns them a sequential Card ID based on the Golf Club they belong to.

Development Notes

- GC Admin needs a way to add/remove Golf Clubs from the drop down list at the top of the registration form. This governs when registration for a particular club is open or closed.
- Validation needs to be done to check that the user is not already registered which is done by checking First Name, Last Name and Phone Number. Error message to be shown if already exists.
- Country and County are fed from the database, not a static list.
- The introduction email will be done outside of the system. Successful registration and forgot password emails need to be handled by the system itself.
- Validation on password whereby 'Password' must equal 'Confirm Password'.

REGISTER FOR THE GOLFER CARD

Fill out the form below and we will send you an activation link to your account. Once the deadline has been reached for your club, you will be notified when you can pick up your personalised Golfer Card from your Clubhouse.

If your Golf Club is not in the list, please [click here](#) to find out how to join.

Register

Pro Registration

Process

1. A golfer applies for a Golfer Card at a participating golf club.
2. They collect a Golfer Card and fill out a printed form, handing it the Golf Pro to add to the system.
3. From within the 'Golfer' page, they click 'Add Golfer'.
4. They use the smart search to enter the associated Golfer Card ID. The list is populated based on all cards within the platform which are within the system globally and have not been associated with a golfer yet.
5. They enter the golfer's information.
6. The system checks that the golfer has not been associated to a card by checking the 'First Name' 'Last Name' and 'Mobile Number'.
7. If the golfer has already been associated to a card or is registered within the platform, a warning screen tells the golf pro that the user already exists, or has a card associated already and then asks for confirmation to assign another card to that golfer.

Development Notes

- Only available card numbers can be used. These are global IDs that have been added to the platform but are not assigned to a golfer yet.
- A check makes sure that the golfer is not already registered in the system, with associated prompt. If they are and also have a card associated with them, a confirmation must be given to add the new card.
- 'Which golfer are they a member of' must default to the golf club trying to add them.
- 'Note' field is not mandatory.
- 'Terms and Conditions' is mandatory but not 'Relevant Information'. This will be used in V2 of the platform.
- Country and County are pulled in from the database and are not static lists.

Note

Golf Clubs Page

Description / Explanation

This page shows Platform Admin all the Golf Clubs who are registered in the system.

It also allows the Platform Admin to add a new Golf Club, view their details, edit their information, or delete them completely from the platform.

Table Columns

Club Name	Name of the golf club
Club Number	The golf club's 'ID Number'
Club Admin Name	The admin user for this club
Associated Golfers	Number of golfers who are members of this club, i.e. have this golf club as their primary or secondary golf club membership
Number of Check-ins	The number of check-ins that have happened at this club, taken from the Club ID in the check-in table.

Development Notes

- The 'Since XXXX' values in the stats boxes will be static based on when the site goes live.
- Number of Golf Clubs is just a record count from the Golf Club Database Table.
- Registered Golfers is just a record count from the Golfer Database Table.
- Number of Check-ins is just a record count from the Golfer Database Table.
- Buttons in the final column allow the user to 'View the Club Profile' 'Edit the Club' (which opens the same pop-up as 'Add Golf Club' but with modal title changed to 'Edit Golf Club' and the fields pre-populated and finally 'Delete' which allows deletes the golf club from the system after a confirmation prompt).
- Clicking on a golf club name opens the golf club profile page.

The screenshot shows the 'Golf Clubs' section of the Golfer Card web application. On the left is a dark sidebar with navigation links: 'Golf Clubs', 'Activity', 'Golfers', 'Cards', 'Readers', 'My Profile', 'Info & Support' (with a dropdown arrow), and 'Logout'. The main content area has a header 'Golf Clubs' with three summary boxes: 'NUMBER OF GOLF CLUBS' (65841, Since June 2017), 'REGISTERED GOLFERS' (236521, Since June 2017), and 'NUMBER OF CHECK-INS' (563698, Since June 2017). Below this is a table titled 'Golf Club Overview' with columns: Club Name, Club Number, Club Admin Name, Associated Golfers, Number of Check-ins, and actions (Copy, Search, Edit, Delete).

Club Name	Club Number	Club Admin Name	Associated Golfers	Number of Check-ins	
Aberdare Golf Club	610603	aberdare	394	1904	Search Edit Delete
Aberdovey Golf Club	610604	aberdovey	930	5678	Search Edit Delete
Abergele Golf Club	610605	abergele	345	5345	Search Edit Delete
Abersoch Golf Club	610606	abersoch	425	1689	Search Edit Delete
Aberystwyth Golf Club	610607	aberystwyth	869	9032	Search Edit Delete
Alice Springs Golf Club	610608	alice	352	5489	Search Edit Delete
Anglesey Golf Club	610609	anglesey	893	9079	Search Edit Delete
Ashburnham Golf Club	610610	ashburnham	697	5345	Search Edit Delete

Add/Edit Golf Club

Description / Explanation

A Golf Club can only be added by a Platform Admin user. This is done by clicking the '+' button located at the top right corner of the 'Golf Club' table.

Development Notes

- Golf Club IDs are just sequential within the system.
- The admin user who is added during this process needs to receive the same account confirmation email as a normal user.
- All fields on this form are mandatory for submission, but for V1 of the platform do not require any kind of validation or verification.
- The Club Facilities drop-down is a multi select list and populates the relevant boolean values in the 'Golf Club' Database Table.
- This same Pop-Up is used when editing a Club but; The Modal Heading is changed to 'Edit Golf Club' and the data in all the fields is pre-populated including the image field.
- As with the user registration, the country and county drop-downs need to be fed from the database.

Add a Golf Club

Golf Club Name	21

Close **Save changes**

Player Activity Page

Description / Explanation

This page essentially uses the 'Player Activity' Database Table to show who has checked-in and where. This Table is populated by the card readers at the golf clubs when a user taps their Golfer Card on the Card Reader.

As per the user permission notes, some of the columns will not be visible to a golfer or a club and some of the data also needs to be filtered.

Table Columns

Golf Club	Displayed by using the ReaderID to reference the Card Reader Database Table to find the associated golf club.
Golfer Name	Displayed based on the PlayerID.
Home Club	Extracted from the 'Player' Table 'FirstClubID' field.
Date	Date of the check-in
Time	Time of the check-in

Development Notes

- Filters need to be applied to the data based on who the user is or which golf club is viewing.
- Certain columns are not viewable by certain user types.
- Clicking on a golf club opens the golf club profile page, clicking on a golfer opens their profile.
- 'Add Activity' is only viewable and accessible to a golf club or platform admin.

The screenshot shows a web browser window displaying the 'Player Activity' page of 'The Golfer Card' application. The left sidebar contains navigation links: 'Activity', 'Golfers', 'Cards', 'My Profile', 'Info & Support', and 'Logout'. The main content area has a header 'Player Activity' and a 'Copy' button. A search bar is present with placeholder text 'Search:'. Below is a table listing player activities:

Golf Club	Golfer Name	Home Club	Date	Time
Clays Golf Club	Sarah Munrow	Radyr Golf Club	23/05/2017	14:30
Clays Golf Club	Katie White	Radyr Golf Club	23/05/2017	14:28
Clays Golf Club	Jerry Peters	Radyr Golf Club	23/05/2017	14:23
Clays Golf Club	Terry Watkins	Radyr Golf Club	23/05/2017	14:20
Clays Golf Club	Neville Sanderson	Radyr Golf Club	23/05/2017	14:11
Radyr Golf Club	Benjamin Chan	Radyr Golf Club	24/05/2017	09:00
Radyr Golf Club	Andrew Watkins	Radyr Golf Club	23/05/2017	14:31
Radyr Golf Club	Paul Robinson	Radyr Golf Club	23/05/2017	14:29
Radyr Golf Club	Lee Dawkins	Radyr Golf Club	23/05/2017	14:26
Radyr Golf Club	Claire Rogers	Radyr Golf Club	23/05/2017	14:21

At the bottom, it says 'Showing 1 to 10 of 11 entries' and has navigation buttons for 'Previous', '1', '2', and 'Next'.

2017 © The Golfer Card. - www.onegolfnetwork.com

Add Activity Modal

Description / Explanation

This Modal allows a golf pro to manually add a player activity. It is unlikely that this will be used in reality as activity is added by the card reader when the player taps their Golfer Card.

Development Notes

- The Golfer Card Number field is a smart search of registered cards.
- The line beneath the Golfer Card Number shows the golfer's name and their primary membership golf club based on the Golfer Card Number selected in the smart search.
- The Check-in to Golf Club field is only viewable to Platform Admin. If the user is a golf club, then this field is auto populated to their golf club.
- The Date field auto populates to today's date.
- The Time field auto populates to the current time (GMT).

The screenshot shows a web application interface for 'The Golfer Card'. The main navigation bar includes links for 'Activity', 'Golfers', 'Cards', 'My Profile', 'Info & Support', and 'Logout'. The 'Player Activity' section is active, displaying a list of activities. A modal window titled 'Add Activity' is open, prompting for a 'Golfer Card Number' (110001) and a 'Check-in to Golf Club' (selected as 'Clays Golf Club'). Below this, there are date and time selection fields. A table lists 11 previous activities, showing details like location, player name, date, and time. At the bottom of the modal is a 'Close' button and a red 'Add Activity' button.

Date	Time
23/05/2017	14:30

2017 © The Golfer Card. - www.onegolfnetwork.com

Golfer Cards Page

Description / Explanation

This page shows the Golfer Cards which have been added to the platform.

If logged in as a golf club, the table only shows cards which have been associated to the logged in user's golf club.

If a card has been added to the platform but not yet assigned to a golfer then the last 3 columns will be blank.

The data is pulled from the 'Registration Card' Database Table.

Table Columns

Card Number	CardNumber field.
Golf Club	Extracted from the 'Golf Club' Table 'ClubName' field.
First Name	Extracted from the 'Player' Table 'FirstName' field.
Last Name	Extracted from the 'Player' Table 'LastName' field.
Registered	The date the card was assigned to a golfer

Development Notes

- 'Golf Club' column is hidden if the user type is golf club.
- If logged in as a golf club, then the table only shows cards assigned to them.
- The registered date relates to when a user is assigned to a card, not when the card is added to the platform.
- Request new cards is only visible to user type 'Golf Club'
- The '+' button is only visible to platform admin.
- Clicking on 'First Name' or 'Last Name' opens the user profile.

The screenshot shows a web browser window displaying the 'Golfer Cards' section of the 'The Golfer Card' application. The left sidebar contains navigation links: 'Golf Clubs', 'Activity', 'Golfers', 'Cards' (which is the active tab), 'Readers', 'My Profile', 'Info & Support', and 'Logout'. The main content area has a header 'Golfer Cards' with a 'Request New Cards' button and a search bar. Below is a table listing 10 entries of golfer cards, with 11 total entries shown. The table columns are: Card Number, Golf Club, First Name, Last Name, and Registered Date.

Card Number	Golf Club	First Name	Last Name	Registered
GCR1001	Radyr Golf Club	Benjamin	Chan	01/06/2017
GCR1002	Radyr Golf Club	Andrew	Watkins	05/06/2017
GCR1003	Radyr Golf Club	Sarah	Munrow	01/04/2017
GCR1004	Langland Bay Golf Club	Paul	Robinson	10/03/2017
GCR1005	Langland Bay Golf Club	Katie	White	21/03/2017
GCR1006	Radyr Golf Club	Lee	Dawkins	10/04/2017
GCR1007	Radyr Golf Club	Jerry	Peters	11/02/2017
GCR1008	Radyr Golf Club	Claire	Rogers	02/01/2017
GCR1009	Langland Bay Golf Club	Terry	Watkins	24/04/2017

Request New Cards Modal

Description / Explanation

This modal allows a golf club to request new Golfer Cards. It sends an email to the platform admin and has no direct action or influence within the platform.

The email will contain some static text, the golf club name and the number of cards that have been requested.

Development Notes

- HTML email template will be provided for use.
- Confirmation to show on screen that explains the request has been received.

The screenshot shows a web application interface for 'The Golfer Card'. On the left is a sidebar with icons for Golf Clubs, Activity, Golfers, Cards, Readers, My Profile, Info & Support (with a dropdown arrow), and Logout. The main area has a header 'Golfer Cards' and a sub-header 'Golfer Cards'. A modal dialog titled 'Request More Golfer Cards' is open in the center. It contains a message: 'Let us know how many Golfer Cards you need and we will send out a fresh batch to you. It typically takes 5 days for us to deliver your Cards from the day of request.' Below this is a 'Number of Cards:' input field with a placeholder 'Card Number' containing 'GCR1001' and 'GCR1002'. To the right of the input field are two buttons: 'Close' and 'Request Cards'. In the background, there is a table listing 11 entries of golfers, each with their last name, registered date, and a redacted card number. The table has columns for Last Name, Registered, and Card Number (which is partially visible). The footer of the page includes the copyright notice '2017 © The Golfer Card. - www.onegolfnetwork.com'.

Last Name	Registered	Card Number
Chan	01/06/2017	GCR1001
Watkins	05/06/2017	GCR1002
Rudrow	01/04/2017	GCR1003
Robinson	10/03/2017	GCR1004
White	21/03/2017	GCR1005
Dawkins	10/04/2017	GCR1006
Peters	11/02/2017	GCR1007
Rogers	02/01/2017	GCR1008
Watkins	24/04/2017	GCR1009
Beale	06/06/2017	GCR1010

Assign Cards Modal

Description / Explanation

This is only accessible to platform admin and allows them to associate golfer cards to a particular golf club.

These associated cards are then used when a golfer goes through the self registration process.

It also reflects any new batch of cards sent to the club for pro registration if new ones are requested by the club from within the 'Request New Cards' modal.

Development Notes

- The 'Select Golf Club' dropdown determines which golf club the cards will be assigned to.
- The range will add all cards from the bottom range to the top range. For example, if 'CMGC1001' and 'CMGC2000' are added then 1000 card records will be added and associated to the selected golf club; CMGC1001, CMGC1002, CMGC1003 etc.

The screenshot shows a web application interface for 'The Golfer Card'. The left sidebar includes links for Golf Clubs, Activity, Golfers, Cards, Readers, My Profile, Info & Support, and Logout. The main area displays a list of 'Golfer Cards' with columns for Card Number (e.g., GCR1001-GCR1010), Club (e.g., Langland Bay Golf Club, Radyr Golf Club), Holder (e.g., Katie, Lee, Jerry, Claire, Terry, Jessica), and Registered Date (e.g., 21/03/2017, 10/04/2017). A modal dialog titled 'Assign Cards' is open, prompting the user to select a Golf Club from a dropdown menu ('Select') and enter a card range ('Bottom Range' and 'Top Range'). The background shows a table of golfers with columns for Last Name and Registered date.

Card Readers Page

Description / Explanation

This page shows all of the readers included in the platform, along with which clubs they are associated with.

It is this assignment of reader to club that allows the system to know where a golfer has checked-in.

This is important so that old readers still show the correct data and also in cases where a golf club might have more than one reader active.

Table Columns

Card Reader Number	CardNumber field.
Golf Club	Extracted from the 'Golf Club' Table 'ClubName' field.
Golf Club Number	GolfCourse field.

Development Notes

- This page is only accessible to platform admin.
- In some cases a golf club will have more than one reader, or might have historical readers that we still need to be referenced.
- The button in the final column opens the same modal as the 'Add New Reader' but the modal header is changed to 'Edit Card Reader' and the fields are pre-populated with the relevant data.
- V2 we will need to think about having a status for the card readers. This will address if a card reader is within inventory, sent to a club, active or expired.

The screenshot shows a web browser window displaying the 'Card Readers' page of the Golfer Card application. The left sidebar contains navigation links: Golf Clubs, Activity, Golfers, Cards, Readers (selected), My Profile, Info & Support, and Logout. The main content area has a header 'Card Readers' and a 'Copy' button. A search bar is present. Below is a table listing ten card readers, each with an edit icon.

Card Reader Number	Golf Club	Golf Club Number
GCR98610601	Radyr Golf Club	610601
GCR98610602	Clays Golf Club	610602
GCR98610603	Aberdare Golf Club	610603
GCR98610604	Aberdovey Golf Club	610604
GCR98610605	Abergele Golf Club	610605
GCR98610606	Abersoch Golf Club	610606
GCR98610607	Aberystwyth Golf Club	610607
GCR98610608	Alice Springs Golf Club	610608
GCR98610609	Anglesey Golf Club	610609
GCR98610610	Ashburnham Golf Club	610610

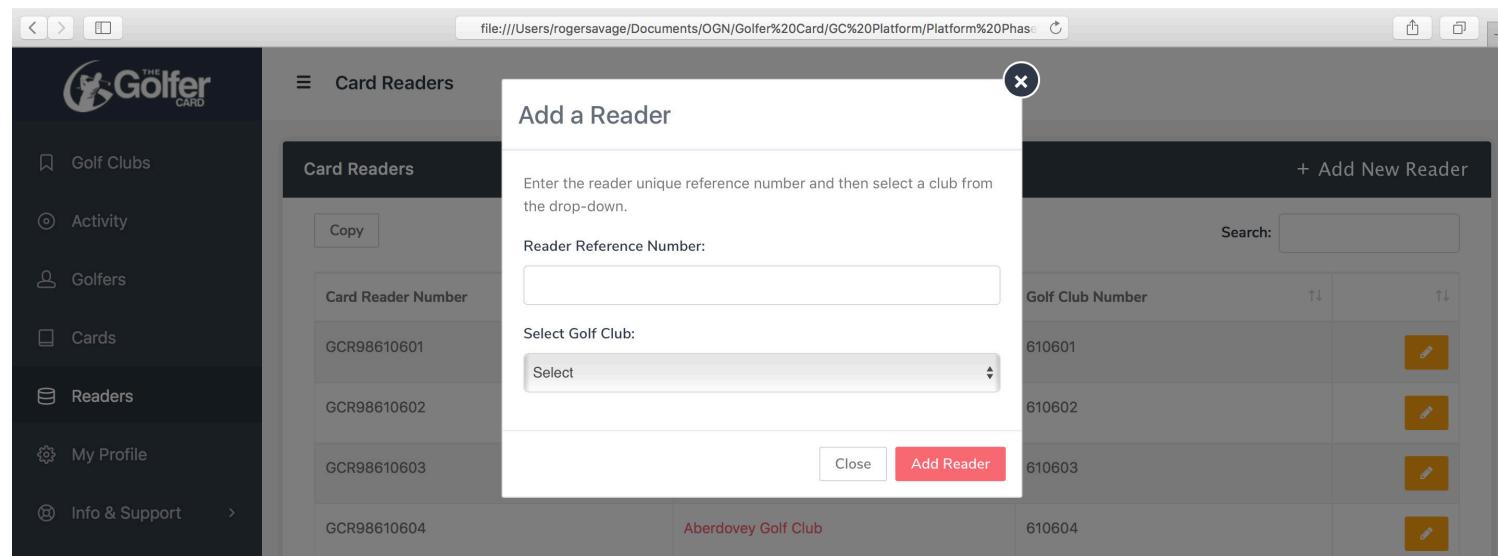

Add New Reader Modal

Description / Explanation

This modal allows a platform admin to add a card reader to the system and assign it to a club.

Development Notes

- The reader reference number is the unique ID that the reader sends to the platform during the check-in process.

Golf Club Profile

Description / Explanation

This page simply displays all the data contained within the 'Golf Club' Database Table.

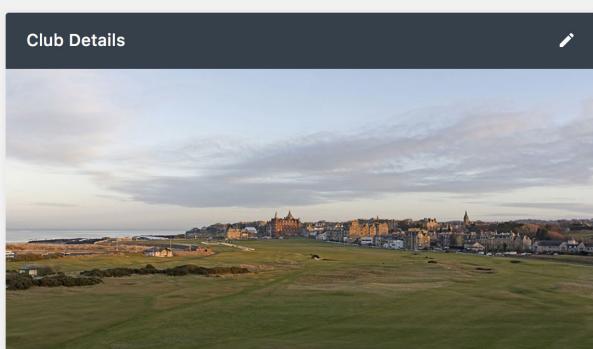

Development Notes

- This page is shown to a golf club if they click 'My Profile', or if a user or platform admin click on a golf club name throughout the platform.
- Edit buttons are only shown to the golf club or platform admin (not shown to a golfer if they reach this profile page by clicking on the golf club name within the 'My Activity' page).
- The 'My Account Details' portlet is only displayed to the golf club, not to golfers.
- The modals used to edit information on this page need to be pre-populated with the data relevant to this golf club.

Golfer Profile

Description / Explanation

This page simply displays all the data contained within the 'Player' Database Table.

Development Notes

- This page is shown to a golfer if they click 'My Profile', or if a golf club or platform admin click on a user's name throughout the platform.
- Edit buttons are only shown to the user or platform admin (not shown to a golf club if they reach this profile page by clicking on the user's name).
- The modals used to edit information on this page need to be pre-populated with the data relevant to this golf club.

The screenshot shows a web browser window displaying the 'My Profile' section of the 'The Golfer Card' application. The left sidebar includes links for 'My Activity', 'My Profile' (which is active), 'Info & Support', and 'Logout'. The main content area has two main sections: 'My Golfer Card Details' and 'My Account Details'.
My Golfer Card Details:

- Name: Mr David Watkins
- Golfer Card Number: 1920009321
- Golfer Card Membership: Level 1
- Home Club: Radyr Golf Club
- Secondary Club: None

My Account Details:

- Registered Email: davidwatkins@onegolfnetwork.co.uk
- Password: ***** (redacted)
- Contact Number: 01773 278 372
- Gender: Male
- Date of Birth: 04/12/1966
- Address: Cherry Cottage
87 Avenue Road
Cardiff
South Glamorgan
CF10 3AD
Wales

A note in the Golfer Notes section states: "This area of the screen is only visible to the Golf Pro or Golfer Card admin. It cannot be seen by the Golfer themselves."

At the bottom, a footer note reads: 2017 © The Golfer Card. - www.onegolfnetwork.com

Additional & V2

Info & Support

All of the links in this menu area will open a new tab in the browser and lead to a URL provided, developed and populated by OGN.

The placeholder ‘a href’ will just need to be changed before going live.

Logout

All users will be directed to the login page after clicking this logout link.

De-Duplication

There will need to be a daily cron-job that checks all data for duplication. A duplication is where a check-in has occurred more than once at a particular golf club by a golfer on the same day.

The duplications need to be deleted from the database.

Existing Technology

There is an existing platform built with Yii that can form the basis for this work and should be adapted and extended to meet the new requirements.

V2 Notes

The platform will be developed further following Beta testing feedback. There are a number of items which we know for certain that will need to be started as soon as this initial version is complete, such as:

- Process and management around lost cards and the status of cards.
- Creation of a Reports area providing the platform and admin with a deeper insight into check-in and golfer data.
- Integration with ‘Mailing Manager’ marketing platform. R&D required first.
